

ECS CHANGES TRAFFIC PATTERN

Please review the information below so you are aware of the changes that have taken place in the traffic pattern at Ellicottville Central School that went into effect on Nov. 19.

- Please reduce speed to 5 mph while on school grounds.
- The north entrance (near the playground) will only be used as an entrance.
- Parents dropping off students will come in the north entrance and exit out of the south entrance. Buses will be using the outer loop as part of the two-way traffic during the AM arrival and PM dismissal.
- The loop nearest the school will be one-way only with no cars allowed in that area in the AM (7:45-8:05 a.m.) and PM (2:45-3:05 p.m.).
- Cars exiting the elementary parking lot will use either loop once buses are clear of the area.
- Cars that park in the elementary lot must enter the north entrance.
